

Bunyan, Honda (gas) Power Roller Screed w/4 striker tubes

- The Bunyan Roller Striker is the original roller screed produced and is still the industry leading brand that concrete contractors demand.
-
- Bunyan Striker Tubes do not wear out in the middle. Tube wear occurs in the last few inches of the end as the wall of the tubing wears thin. Tube service is usually a matter of cutting away the worn part of the end and reinstalling the end plates at a shorter length.
- 2005(?) model GC05-1369319
- Includes 13', 15', 20' & 25' striker tubes
- Runs well.
- **Asking \$3,500 OBO**
